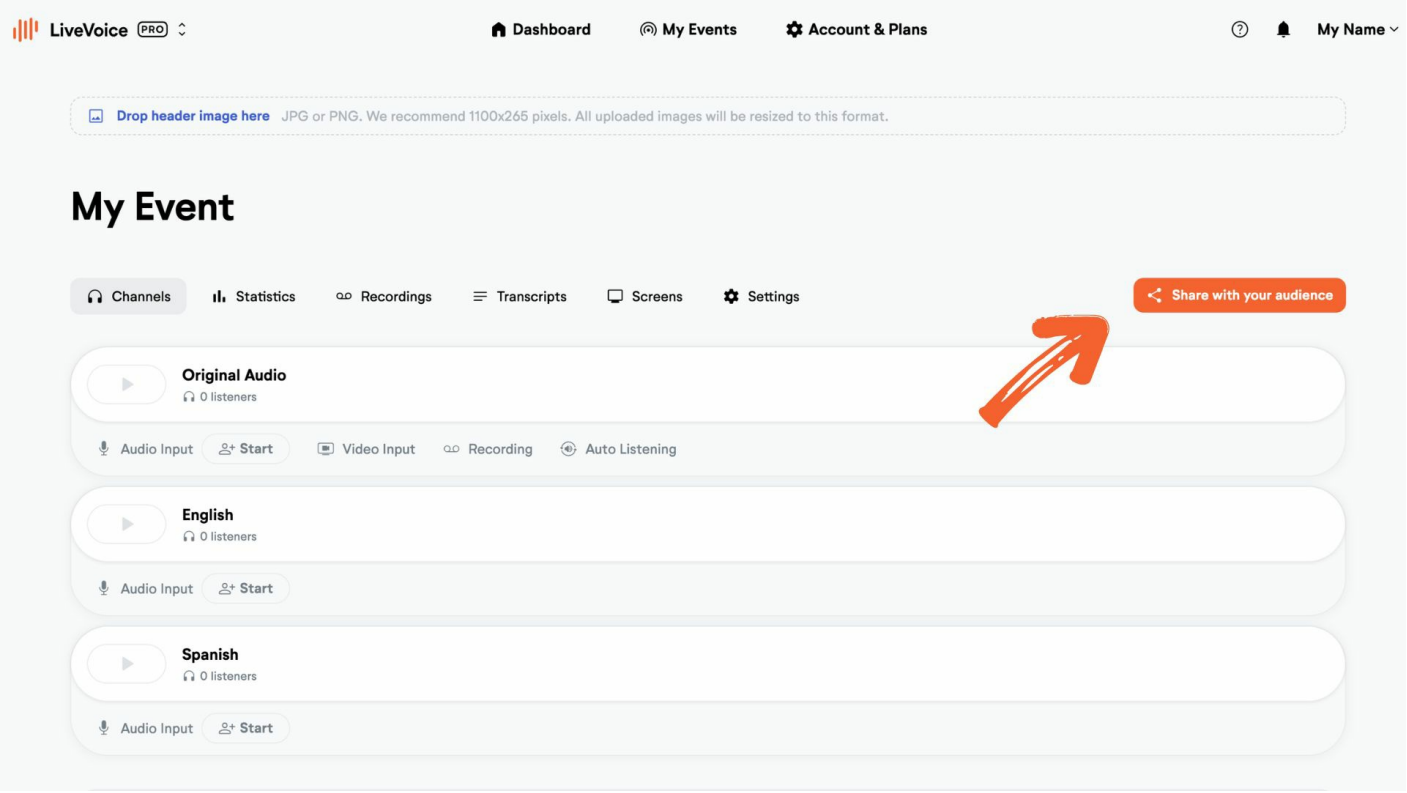
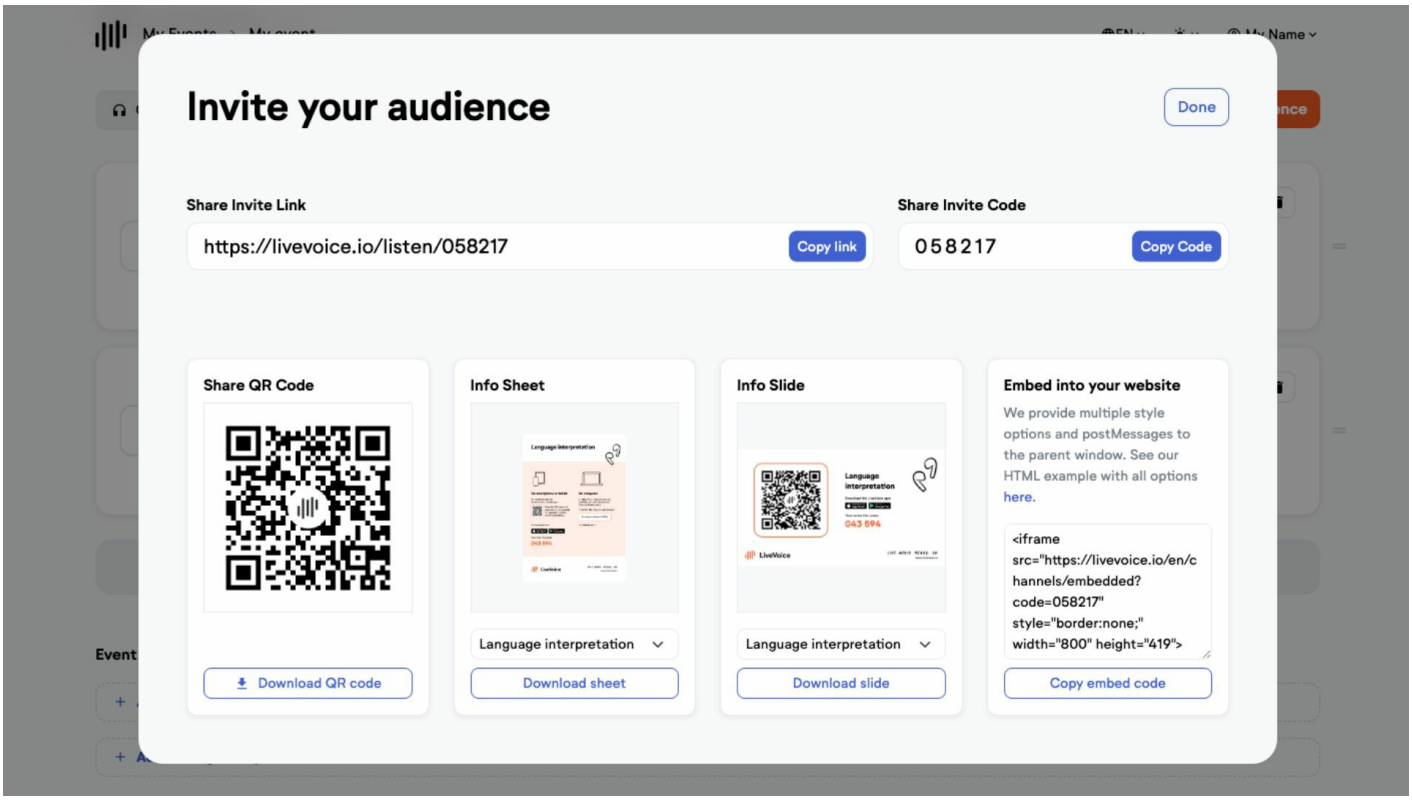
One of the easiest sharing options is to download automatically prepared sheets or slides. These PDFs already include instructions, and the QR code and 6-digit code of your specific event.

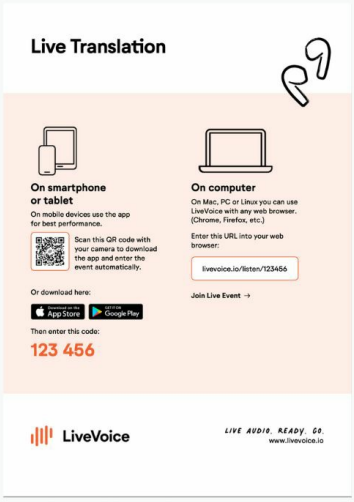
- **Sheet:** To print as handout or send via email as PDF before your event.
- **Slide:** Landscape format to present on a large screen during your event when making the announcement about how the audience can join.

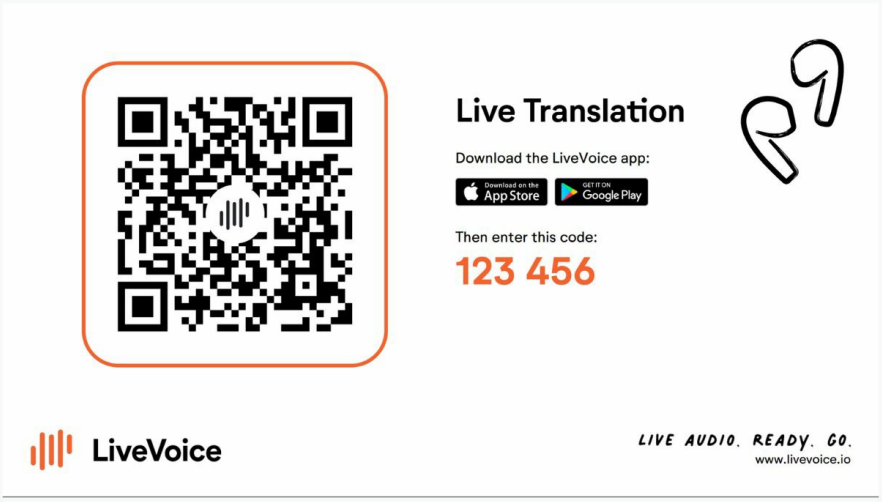
Step 1: Click "Share with your audience" in your event.



Step 2: Choose the text that should be printed as headline so it fits your use case.
You can also enter a custom title.







Step 3: Download PDFs
