

Browser and smartphone compatibility

Learn more about which devices are compatible with LiveVoice.

LiveVoice works with all computers and mobile devices. On computers, simply use the web browser (Chrome, Firefox, or Safari). On mobile devices like smartphones or tablets, we recommend using the app.

Mobile devices: Operating systems for apps

We made sure LiveVoice works with almost every smartphone, even quite old ones

- iOS 15 (2021) or newer
- Android 5.0 (2104) or newer

Web Browsers

LiveVoice is compatible with all modern browsers, like Firefox, Chrome, and Safari. Note that we recommend using the browser only on computers, not on smartphones. On mobile devices use the app.

For **speakers**, the minimum versions are:

- Chrome 88 (2021) or newer
- Firefox 87 (2021) or newer
- Safari 15 (2021) or newer
