

Using your smartphone as speaker

How to use the LiveVoice mobile app for tour guides, mobile interpreting and more.

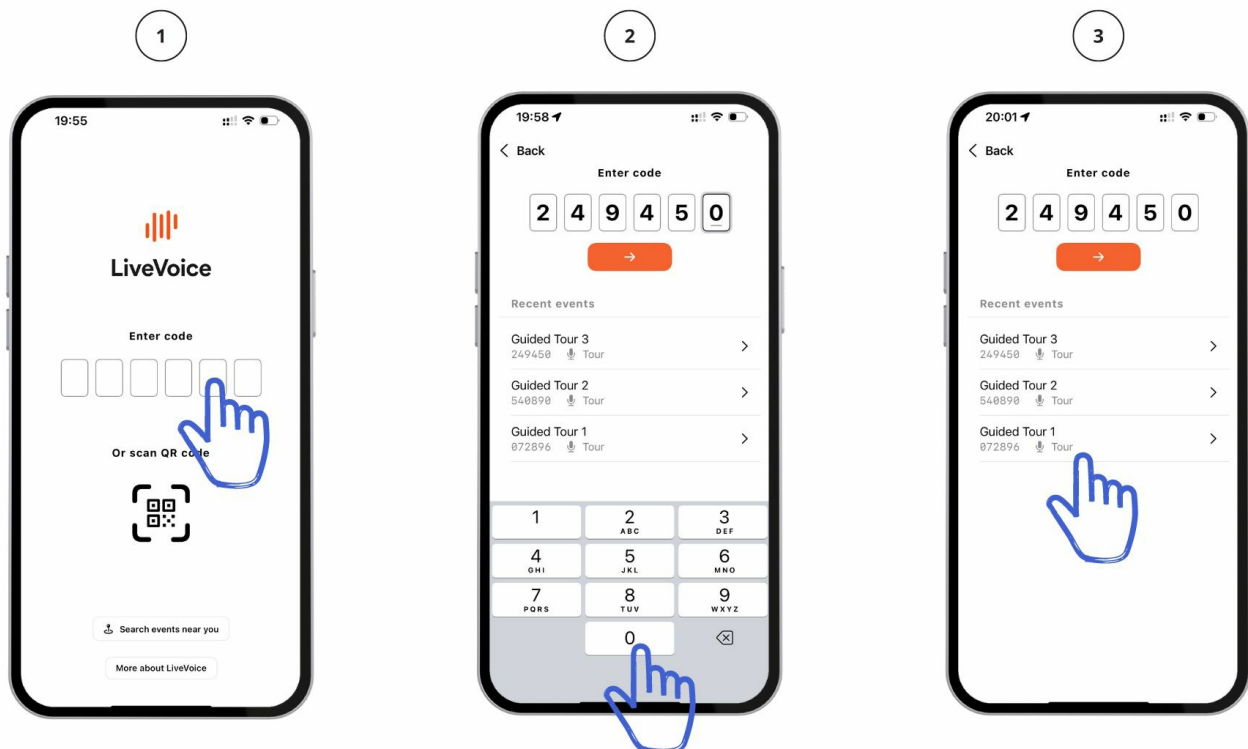

[Basics](#)
[Live Translation](#)
[Guided Tours](#)
[Audio Description](#)
[Speaker](#)

When you are a tour guide or use LiveVoice as mobile interpreting system it makes sense to use a mobile device to speak into the system.

👉 Please make sure to use the app and not the web browser, as for speaking the app is the reliable way to go.

Here is a quick step-by-step guide that shows you how to start as speaker using the app.

1. 1.
Open the app and tap the code field
2. 2.
Enter 6-digit code
3. 3.
OR: Choose from recent events list

1. 4.
Click Start >> Speaker interface turns orange, you are live now
2. 5.

To mute yourself, click Mute button >> Interface turns blue

3. 6.

Unmute yourself by clicking Mute button again
