![LiveVoice]

Speaker password

Protect access to your channels with speaker passwords.

Features Live Translation Guided Tours Silent Conferencing Audio Description Admin
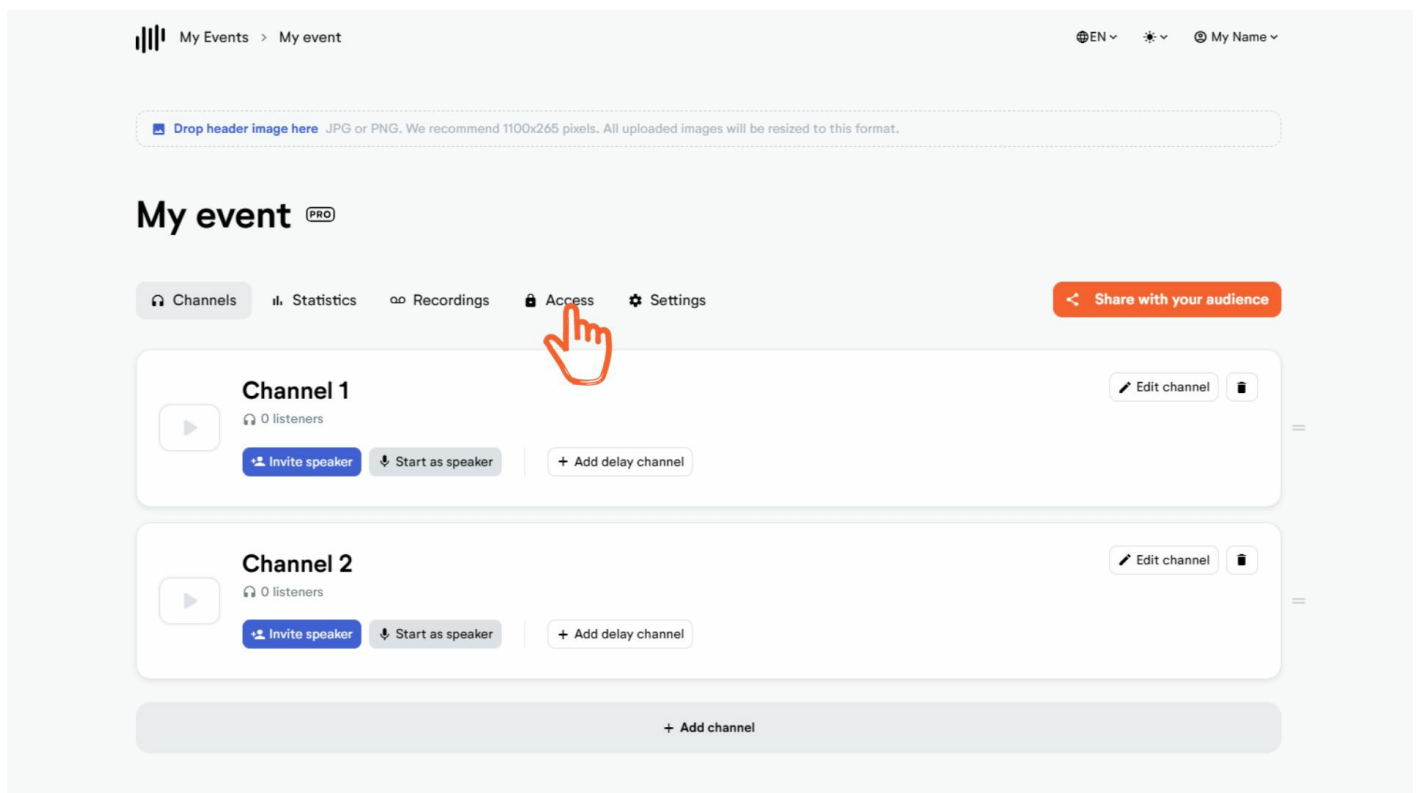

Available in: SMART, PRO

Use this feature to add an extra layer of security to your event, to make sure only someone having the right password can start streaming on your event channels.

If you set a speaker password, all speakers will have to enter this password once before joining.

Setup

1: In your admin account go to the "Access" tab of your event.

2: Create password for speakers.

My event PRO

Share with your audience

⊙ Discoverable via geo location

Activate this feature if you want to make your event visible to LiveVoice users at a certain location. People within a set radius will then be able to join your event without needing the listener code.

🎧 Listener password

If listener password is activated, any listener of this event needs to enter this additional password to be able to join. You may use this as an additional security measure if needed.

🎤 Speaker password

If the speaker password feature is activated, any speaker of this event (e.g. interpreters) needs to enter this additional password to be able to join.
