

Haptic buttons with Stream Deck

Get haptic buttons for interpreters, using hot keys and Stream Deck.

[Advanced](#)[Live Translation](#)[Audio Description](#)[Admin](#)

Some interpreters prefer having haptic buttons even when working with a digital solution. You can serve this need easily by providing a stream deck to them and using our [hot keys](#) for setting it up.

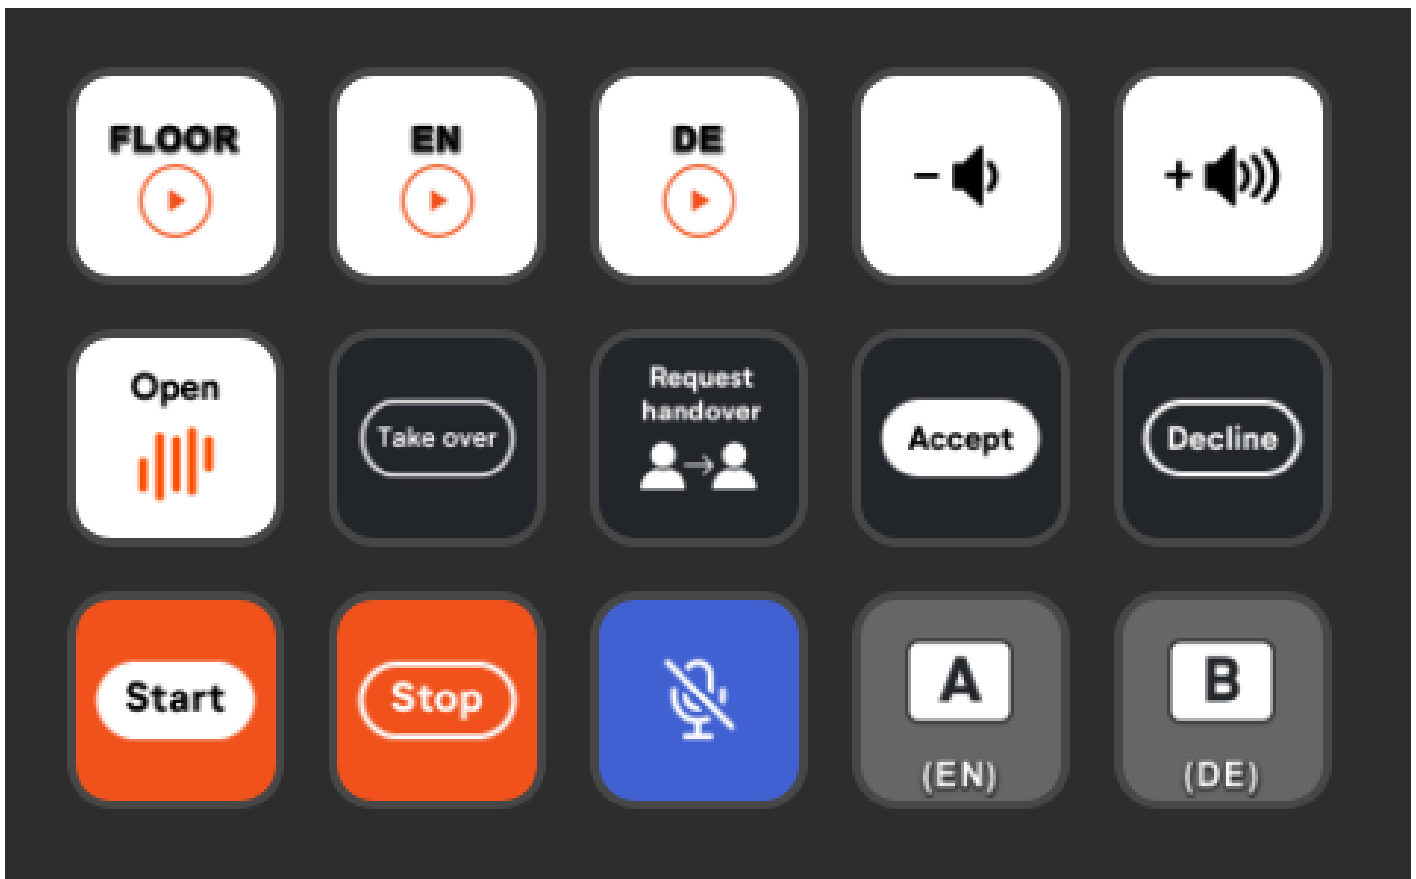

Setup

Step 1: Get a Stream Deck >> [Buy here](#)

Step 2: Download the Stream Deck software >> [Download here](#)

Step 3: [Download the buttons](#) manually OR use our [prepared LiveVoice profile](#)

>> Here is a [list of all available hot keys](#).
