

Team Chat

Use the chat function so interpreters and event admin can stay connected during an event.

[Features](#)[Live Translation](#)[Audio Description](#)[Admin](#)[Speaker](#)

Available in: SMART, PRO

This feature helps ensuring smooth communication between interpreters and event admin.

Team chat works for all speakers (e.g., interpreters) and the event admin. Participants will not see this chat.

Setup

1: Enter the admin account and go to "Settings" in your event.

2: Turn on the chat toggle and click "Update".

My Events > My event

EN * My Name

Event

You can change events between BASIC and PRO any time.

⚠ Make sure your chosen tier is fitting to the plan and listener limit you booked. In Free Plan each can be used with up to 3 listeners. Learn more about that and the extended capabilities of PRO events [here](#).

Event name

My event

Tier

BASIC PRO

Description (optional)

 **Speaker chat** PRO

Enables a chat for this event, in which all speakers (e.g. interpreters) and the admin can participate. Not visible to listeners.

Update Cancel

☐ **Speaker channel switching** PRO

Allows speakers to switch between two channels with one click (e.g. A/B language switching for interpreters).

☐ **Multi listen in** PRO

Allows to watch/listen to multiple channels

3: Speakers of the event can now click on "Chat" in the top right corner to start chatting.

When you start chatting, you first have to enter your name, so other chat users will know who is chatting.

Note: The chat works on event level, which means messages will be visible for all speakers/interpreters. A chat on channel level (one-on-one) is currently not available. Most interpreters use their standard chat tools like WhatsApp for one-on-one communication.
