

Live event messages

Display real time messages and links to participants and speakers.

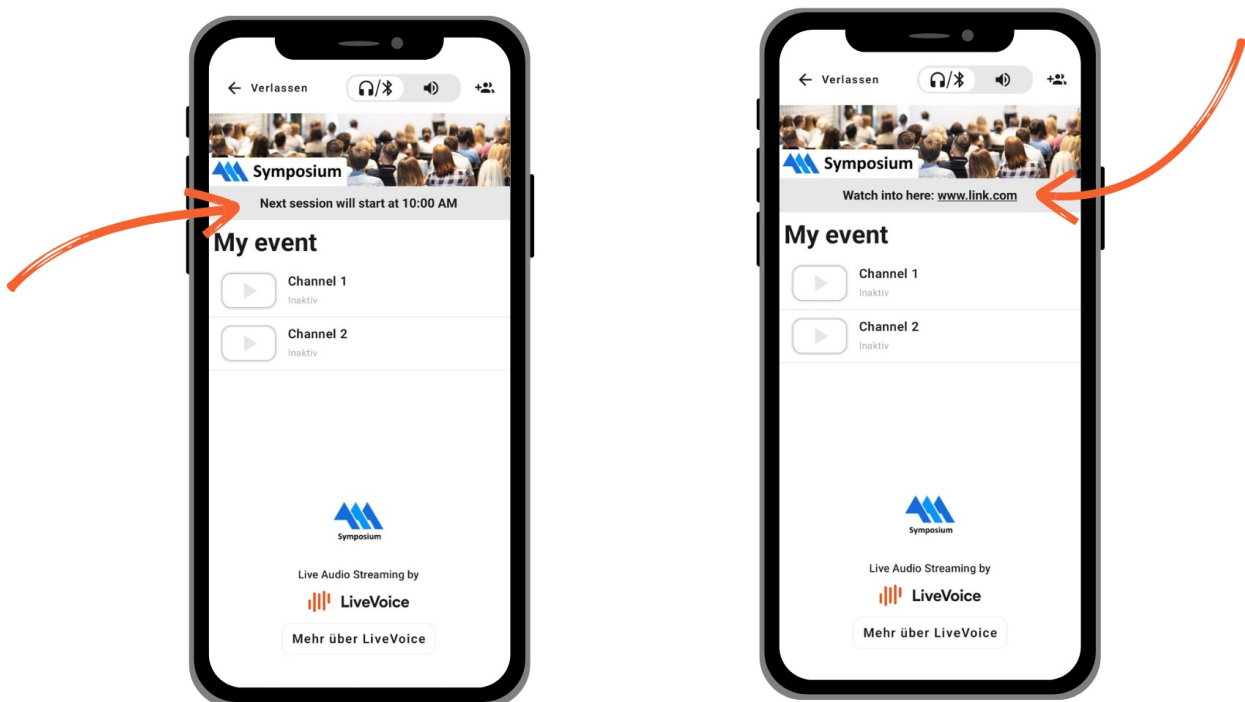

[Features](#)[Live Translation](#)[Guided Tours](#)[Silent Conferencing](#)[Audio Description](#)[Admin](#)

Available in: SMART, PRO

Use this feature to display messages to your participants or speakers on anything you need to communicate quickly, like giving them an update on changes of the event schedule.

Messages are updated in real-time. You can also provide hyperlinks within messages to link to outside websites and services.

For example you can link to time tables or to polls to engage your audience.

Setup

1: Go to the event in your admin account.

2: Click on the field below your channels where you can add messages separately for participants and speakers (e.g. interpreters).
