LiveVoice

# Invite participants & speakers

How to share an event with your audience and let speakers join.
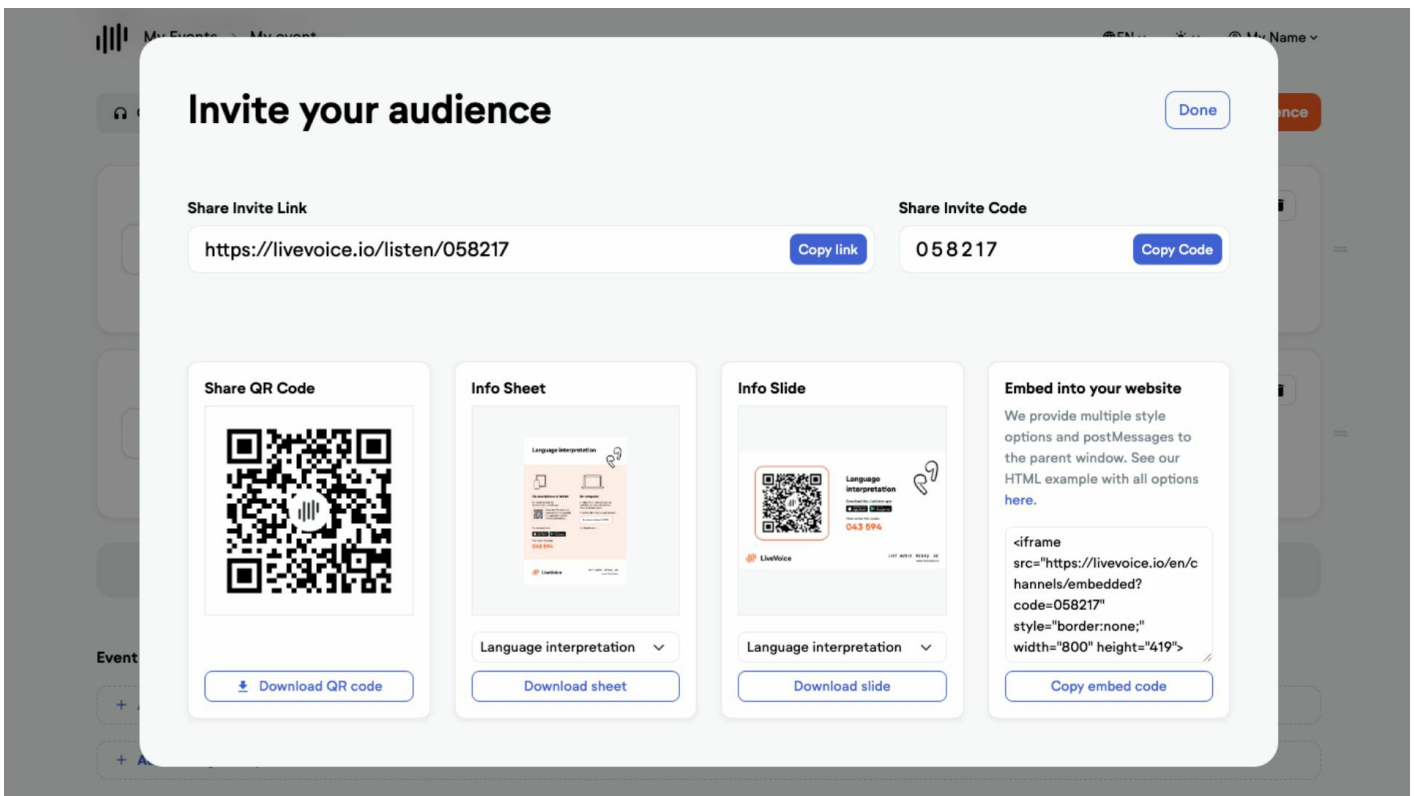

Basics   Share & invite   Live Translation   Guided Tours   Silent Conferencing

Audio Description   Admin

**1: Invite participants**

Click "Share with your audience"

Copy the automatically generated link or 6-digit code, or download automatically generated PDF sheets and slides with QR code. Explore all sharing options here.
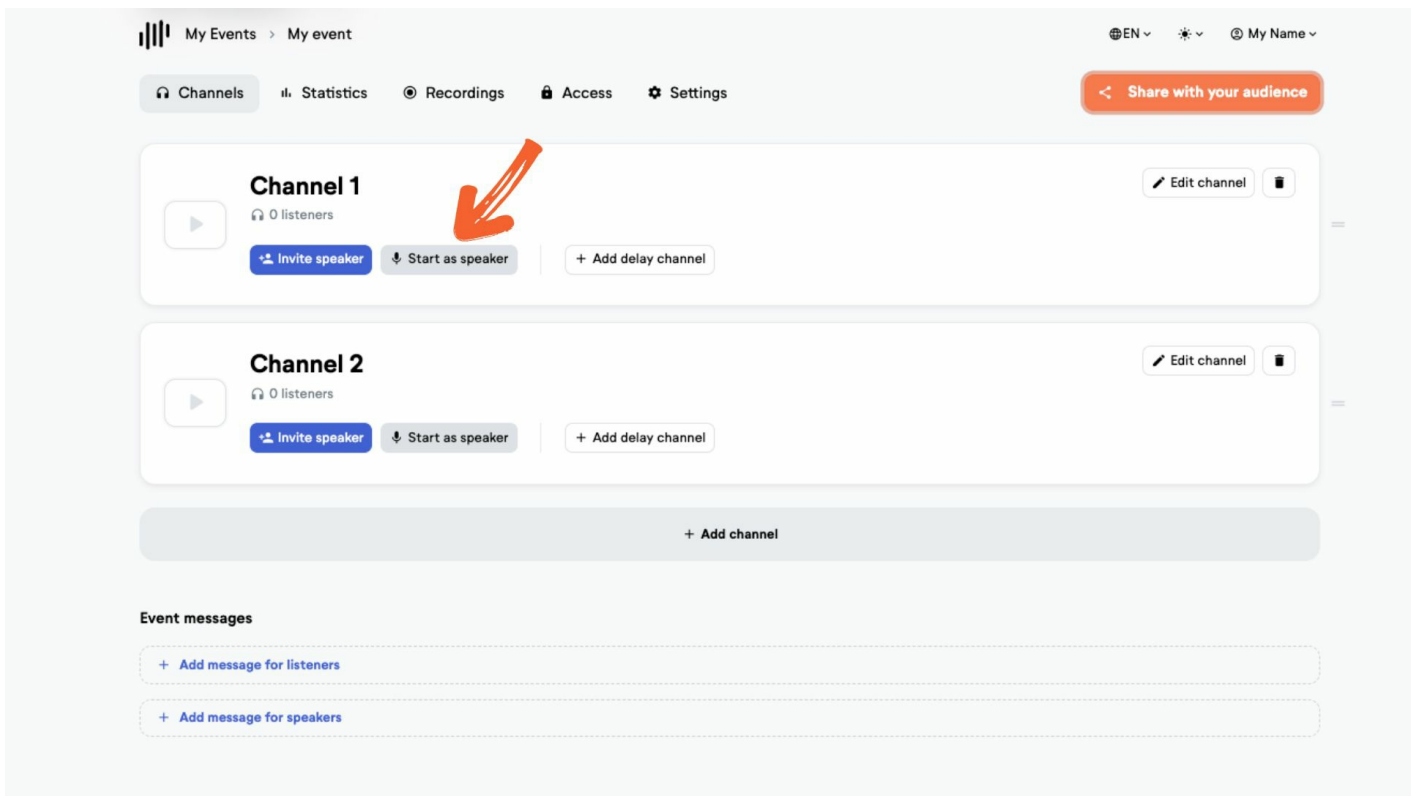

2: Invite speakers - or start streaming yourself

Provide the automatically generated code or the smart link of each channel to its speaker (e.g. to your interpreter, tour guide or AV technician).

As an admin you can also start streaming yourself. Simply click on "Start as speaker" and your channel will open in a new tab.

Note: Each event has one participant code. Each channel has one speaker code.
This means, one event has only *one* participant code but *as many speaker codes* as it has channels.
