

Mobile WiFi recommendations

WiFi Routers for guided tours and other uses cases on the road.

[Tech specs](#)[Guided Tours](#)[Admin](#)

You are a tour-guide who is rather safe than sorry? We've got you covered.

For LiveVoice to work, you and your listeners need to have an internet connection. However, especially when traveling to another country, internet is often a topic of concern. For example: What if not all participants have a data roaming plan? There is a simple solution: Bring along a mobile Wi-Fi router.

Recommended mobile routers

The [GlocalMe Wi-Fi router](#) is a great choice for smaller groups.

It provides WiFi for up to 16 devices.

If you guide larger groups, the [Zyxel Mobile Wi-Fi Hotspot](#) might be the right choice for you.

It provides WiFi for up to 32 devices.
